## COMPLETE PLANS

A set of our complete plans include—

**PLANS** — The complete working plans consist of blue prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot.

**SPECIFICATIONS** — The specifications explain every detail of the construction of the house from the excavation to the interior decorations. We also furnish a blank "Specification and Contract" form which may be filled out locally, if desired.

**LUMBER AND MILL LISTS** — The lumber and mill lists consist of an itemized list of the lumber and mill materials needed to construct the building and stating where each item should be used.
